Databases: MongoDB, SQL, Directus Postgres
Testing: Junit,Mockito
Tools: Claude Ai , Copilot,Chatgpt
Soft Skills: Communication, Critical Thinking, Problem-Solving

EDUCATION

B.E Computer Science & Engineering | *Suguna College of Engineering, Anna University* | 2022–2026 | 83.4%

EXPERIENCE & INTERNSHIP

Intern at Dataclap Digital | 4 months

- Completed hands-on industry internship gaining practical immersion in full-stack web engineering, API integrations, and database operations.
- Collaborated on real-world CRUD implementations, code reviews, front-end optimization, and backend data flow verification.

PROJECTS

Fees Management System

- Secure admin login system to restrict access to authorized personnel.
- Core module enables admin to manage student fee records: view, add, delete entries, and track payments and dues.

Land Secure System

- Digital platform to store and manage land records including owner name, survey number, and property documents.
- Streamlines land registration and ownership transfer — fast, organized, and secure.

Loan prediction with LLM

- Built an LLM-based loan prediction model for credit risk assessment, improving prediction accuracy and decision efficiency. — achieved 98% accuracy.

CERTIFICATIONS & ACHIEVEMENTS

- Robotic Technologies Private Limited — in collaboration with The National Robotics Foundation (November 7, 2024).
- 24-Hour Codethon Participant — demonstrated team collaboration and real-time coding under pressure.
- AI Fluency Training (MS Word & Excel) — organized under the Naan Mudhalvan initiative with Microsoft partnership, conducted by Infispark Foundation.
